

GUTTER REPLACEMENT FACTSHEET

Gutters and downpipes are a vital part of your home. The correct choice of guttering and fixtures will protect your home from heavy rainfall and channel excess water safely away, keeping your home dry.

Here's how we get your job done right the first time:

- Existing guttering, downpipes and brackets are removed or disconnected
- Fascia condition is checked and sections are repaired or replaced as necessary
- String line is used to check fall of gutter to downpipes
- New brackets or spikes are placed into position
- Gutter angles and return ends are manufactured on site
- Gutter is placed into position, falls re-checked
- Gutter joins are sealed between the overlaps as well as over sealed
- Downpipes are connected to new gutter
- All rubbish is removed from site
- Manufacturer's guarantee
- 3-year guarantee on workmanship

Why Choose Us?
